

# karmic guide reveillark combo

Karmic guide reveillark combo is a powerful interaction often found in various formats of Magic: The Gathering, particularly in Commander and other casual formats. This combo revolves around two key creatures: Karmic Guide and Reveillark, which work together to create a loop that can generate tremendous value, often leading to an overwhelming board state or even outright victory. In this article, we will explore the mechanics of this combo, its applications, and strategies for maximizing its effectiveness.

## Understanding the Key Cards

### Karmic Guide

Karmic Guide is a 3/2 Angel creature card for 2W (two colorless, one white) with flying and protection from black. Its most notable ability is its echo cost. When Karmic Guide enters the battlefield, you can return a creature card from your graveyard to the battlefield. This ability allows you to bring back powerful creatures, making Karmic Guide an excellent tool for value generation.

Key Features of Karmic Guide:

- Cost: 2W
- Type: Angel
- Power/Toughness: 3/2
- Abilities: Flying, protection from black, and the ability to return a creature from your graveyard upon entering the battlefield.

### Reveillark

Reveillark is a 4/3 Spirit creature for 3W (three colorless, one white) with flying. Its ability allows you to return up to two target creatures with power 2 or less from your graveyard to the battlefield when it dies. This makes Reveillark a fantastic combo piece, as it can easily recur Karmic Guide and other small creatures.

Key Features of Reveillark:

- Cost: 3W
- Type: Spirit
- Power/Toughness: 4/3
- Abilities: Flying and the ability to return two target creatures with power 2 or less from your graveyard when it dies.

# How the Combo Works

The karmic guide reveillark combo functions through a series of interactions that allow you to create a loop of creature recursion. Here's how the loop operates:

1. Play Karmic Guide: When Karmic Guide enters the battlefield, you use its ability to return Reveillark from your graveyard to the battlefield.
2. Reveillark's Ability Triggers: When Reveillark enters the battlefield, you can return two target creatures with power 2 or less from your graveyard to the battlefield. You can target Karmic Guide and another small creature (or even another Karmic Guide if you have multiple in your graveyard).
3. Repeat the Process: If you return Karmic Guide, it will trigger its ability again when it enters the battlefield, allowing you to bring back Reveillark once more.
4. Create Infinite Loops: By continually returning Karmic Guide and Reveillark, you can create infinite loops to generate infinite power on the board or to gain infinite life if you choose to include life-gain creatures in your recursion.
