This notion challenges traditional views of life after death and opens up a new understanding of the soul's purpose and evolution.

Understanding Life Between Lives

- State of Existence: LBL is described as a realm where souls exist in a state of pure consciousness, free from the limitations of physical form.
- Learning and Growth: During this phase, souls engage in learning experiences, reflecting on past lives and preparing for future incarnations.
- Connection with Guides: Souls interact with spirit guides and other entities who provide wisdom and support throughout their journey.

- Karmic Lessons: Each life presents unique challenges that facilitate personal development.
- Soul Contracts: Souls often make agreements with others before incarnating to ensure mutual growth.

2. The Role of Spirit Guides
