Choosing Your Design

The first step in making friendship bracelets is to choose a design. Just My Style kits often provide several design options, which can include:

Simple Patterns

1. Classic Braided: This is a straightforward design involving three strands of thread braided together.
2. Chevron: A popular design featuring a zigzag pattern created by alternating colored threads.
3. Square Knot: This involves a repeated knotting technique that creates a solid, textured bracelet.

Advanced Patterns

1. Friendship Knot: A more intricate design that requires a bit more skill but results in a beautiful finished product.
2. Bead-Embellished: Incorporating beads into your bracelet for added flair.
3. Macramé: A more advanced knotting technique that creates a textured, woven effect.

Pick a design that resonates with you and your friendship!

Step-by-Step Instructions

Now that you've chosen your design, it's time to start crafting. Here are detailed instructions to guide you through the process of making a simple braided friendship bracelet.

Step 1: Prepare Your Threads

1. Cut Threads: Start by cutting multiple strands of embroidery thread. For a simple braided bracelet, you'll need three strands, each approximately 24-30 inches long.
2. Choose Colors: Select colors that represent you and your friend. You can use one color or a combination for a more vibrant look.

Step 2: Secure the Threads

1. Tie a Knot: Gather the three strands together and tie a knot at one end, leaving a small loop.
2. Secure the Knot: Use a safety pin to attach the loop to a soft surface, like a pillow or use tape to stick it to a flat surface. This will keep the bracelet steady while you work.

Step 3: Braid the Threads

1. Braid: Start braiding the three strands together.
 - Take the left strand and cross it over the middle strand.
 - Then take the right strand and cross it over the new middle strand.
 - Repeat this process until you reach the desired length, leaving enough room at the end for tying off.

Step 4: Tie Off the Bracelet

1. Finish the Braid: Once you've reached the desired length, secure the end with a knot.
2. Trim Excess Threads: Cut any excess thread, leaving about half an inch after the knot.

Step 5: Wear or Gift Your Bracelet

1. Bracelet Closure: You can create a loop with the remaining thread and tie it to the starting loop for a closure.
2. Gift It: If you're making this bracelet for a friend, consider writing a little note about what your friendship means to you.
