Sewing with the JA1506

Once your machine is set up, you're ready to start sewing. Understanding how to use the various features will enhance your sewing experience.

Selecting Stitches

Using the stitch selector dial, you can easily change between different stitch types. Here's a simple guide:

- Straight Stitch: Ideal for basic seams.
- Zigzag Stitch: Perfect for finishing edges and sewing knits.
- Decorative Stitches: Use these for embellishing your projects.

Adjusting Stitch Length and Width

The JA1506 allows you to customize stitch length and width. Adjust these settings based on your project requirements:

- Shorter Stitch Length: Best for intricate patterns.
- Longer Stitch Length: Suitable for basting and gathering.

Maintenance of Your JA1506

Regular maintenance is essential for keeping your New Home Sewing Machine Model JA1506 in optimal working condition.

Cleaning Your Machine

- Dust and Lint Removal: After every few sewing sessions, remove the throat plate and clean out any dust and lint. Use a soft brush or a vacuum attachment specifically designed for sewing machines.
- Oil the Machine: Refer to the manual for specific oiling points and use sewing machine oil to lubricate moving parts.

Changing Needles and Bobbins

- Needle Replacement: Change your needle regularly, especially when switching between different fabric types. Always use the needle appropriate for your fabric weight.
- Bobbins: Use only the bobbins recommended for the JA1506 to prevent jamming and ensure smooth sewing.

Troubleshooting Common Issues

Even the best sewing machines can encounter problems. Here are some common issues and solutions for your New Home Sewing Machine Model JA1506:

Thread Bunching or Jamming

- Check Threading: Make sure the machine is threaded correctly.
- Bobbin Issues: Ensure the bobbin is wound evenly and placed correctly.

Skipped Stitches

- Needle Check: Replace the needle if it's bent or dull.
- Fabric Compatibility: Make sure you're using the right needle for the fabric type.

Machine Not Sewing

- Power Supply: Check that the machine is plugged in and the foot pedal is functioning.
- Foot Pedal Connection: Ensure the foot pedal is properly connected to the machine.
