This contract governs the relationship, outlining the scope of management services provided, payment terms, duration, and the rights and responsibilities of both parties. The purpose of this contract is to establish clear expectations for managing the creator's OnlyFans account, including content scheduling, marketing, subscriber engagement, and financial administration.

Management contracts are common in industries where talent requires professional assistance to maximize revenue and maintain brand presence. In the context of OnlyFans, where creators often focus on content production, a management contract ensures that operational, promotional, and administrative tasks are handled efficiently by a trusted manager or agency.
